EDUCATION

Indian Institute of Information Technology, Senapati
Bachelor of Technology in Electronics and Communications Engineering

Manipur, India
Aug. 2018 – May 2022

EXPERIENCE

Full Stack Software Developer

Feb 2023 – Present

Tree Integrated Service

Kanyakumari, India

- Developing RESTful APIs using fast API in Python, integrating with MongoDB for data storage, and managing AWS server.
- Building responsive Web UI using ReactJS and ANT Design, ensuring an intuitive and user-friendly experience.
- Integrating the API's with the UI and their functionality
- Collaborated with a cross-functional team of designers, and backend developers to deliver high-quality software solutions.

Software Engineer

Nov 2021 – Dec 2022

Anukta IT Solutions

Hyderabad, India

- Implemented a structured folder organization and wrote testing scripts in JavaScript for the automation team, improving code maintainability and efficiency.
- Worked on end-to-end testing using Cypress.io, ensuring the quality and reliability of software products.
- Collaborated with a team to successfully complete two Cypress projects from scratch, delivering high-quality solutions within the given time frame.

Teaching Assistant, Intern

Aug 2021 – Oct 2021

Coding Ninjas

remote, India

- Provided assistance to students with their assignments in Node.js, ReactJS, and JavaScript, ensuring their understanding of key concepts and helping them improve their coding skills.
- Conducted doubt sessions and served as a mentor, supporting students in overcoming challenges and clarifying their doubts related to full stack web development.
- Debugged student's code, identified and resolved issues, and provided guidance to improve the quality and efficiency of their code.

TECHNICAL SKILLS

Languages: Python, OOPs, SQL, MongoDB, FastAPI, JavaScript, C/C++

Frameworks: fastAPI, ReactJs, NodeJs, AWS

Subjects: Data Structure and Algorithms, DBMS

PROJECTS

Codial(Social Media) Web Application | *javascript, NodeJS, MongoDB HTML/CSS*

June 2021 – Sep 2021

- Developed a full-stack web application using Node.js as the backend.
- Implemented user authentication and authorization using email verification.
- Users can upload profile pictures and post content, including images.
- Implemented interactions with posts, such as liking and commenting.
